**F**inancial statements facilitate the communication between corporations and various stakeholders. The integrity, stability and transparency of such communication help preserving Hong Kong as a top global financial centre. To many laypersons, looking through financial statements can be like reading novels in a foreign language, with a sea of jargon obscuring the statements' true meaning. *Financial Analysis in Hong Kong 2<sup>nd</sup> Edition* is a product of experience, feedback and chapter review as well as an update of the changes in practices, guidelines, standards and legislations since its 1<sup>st</sup> edition in 2008. This 2<sup>nd</sup> edition provides a clear, concise reference for analysing corporations' financial statements. Based on the evaluations of published financials, this book is a convenient standalone guide for both novices and financial professionals in the boardroom and beyond.

**Benny K. B. Kwok** is a renowned forensic accountant and expert in litigation support, dispute analysis and fraud investigation, and is the author of two internationally acclaimed titles: *Forensic Accountancy 1<sup>st</sup> & 2<sup>nd</sup> Editions* and *Accounting Irregularities in Financial Statements*. Mr Kwok has acted as a single joint expert in civil proceedings and an expert witness in arbitration hearings, disciplinary proceedings as well as civil and criminal trials, at the District Court and the High Court, in respect of accounting, commercial and financial matters. Mr Kwok is the Adjudicator of the Obscene Articles Tribunal and the Member of the Solicitors' Disciplinary Tribunal, and was the Examiner of the CPA Qualification Programme of the HKICPA for 7 years.
